6. Dover 1:30.27

A letter from the coach,

The fact that indoor track is the shortest of all the high school sports seasons always gives us a special challenge. It means we have to be more prepared on the first day of practice than any other team. We have to focus our efforts and assume our roles quickly. It means we have less time to do more. With a hectic schedule, it's sometimes the end of the season before you can really look back and enjoy all we've accomplished.

Look back on your season with pride and remember the times you spent with you teammates. We were a great group of young and old, experience and newcomer. We all showed drive and determination as we worked to contribute to a successful season. That we accomplished something no other Pinkerton team had yet accomplished, a win at the State Relay Carnival, indicates not only our individual talents, but our ability to perform as a team.

If you haven't done so already, go out of your way to thank your teammates for all they've done. None of what you accomplished as individuals was possible without someone in front of you coaxing you along and someone behind you pushing you forward. Make sure to hunt down the seniors and give them a special thanks. If our team was place you found you wanted to be each day, it was mainly due to their work in building that place over the past fours years.

The excitement of the race, the challenge of the meet and the testing our skills-- these all become our reason for running once we come together. But it's our teammates and the times we share that first draw us to our team. Work hard to make your team a place people want to be and you'll enjoy each season as much as you enjoyed this one.

yours in track

ted carey
